## EDUCATION

### Lebanese International University, Tripoli, Lebanon — *Bachelor of Computer Science*

OCTOBER 2017 - JUNE 2020

Graduated with Honors with a GPA of 3.5/4.0

## EXPERIENCE & TRAINING

### SE Factory, Beirut, Lebanon — *Cycle #15 Graduate*

AUGUST 2021 - NOVEMBER 2021

Intensive full-stack web development program covering cloud architecture, frontend and backend development, source control, web application security, in addition to soft skills, over 12 weeks of lectures, workshops, and projects.

## PROJECTS

### MedClick — *Medical Clinic Management*

Created a website that helps people book their appointments and consultations with a medical clinic. It also facilitates the recruitment process for nurse positions and improves internal communication through live chat.

- Frontend: Angular 9 and React Native
- Backend: Laravel, MySQL, and Firebase

### Sugar Factory — *A dating app*

Co-developed a dating app using ReactJs and React Native for the frontend and Laravel for the backend.

### AssaadCompany — *Construction Company Management*

Built a real-world app with PHP and Angular. Through the app, the client can buy owned or under construction apartments and the manager can perform CRUD operations and see all expenses.

### Facebook-Clone — *Website for people to interact*

Co-created an app where users can add, block or remove friends from their list. Implemented using bootstrap and javascript as frontend, PHP as a backend language, and MySQL for the database.

## PROFILE

Coding is my passion, where I've self-improved a lot and it became my lifelong journey. I always try to expand my skillset and become better than I was the day before. Committed to my path, I work hard, focus on details and keep myself busy discovering the new and the unknown.
